ARAB INVESTMENT FORUM IN MOZAMBIQUE

From 27th to 28th of May 2024, Radisson Blu Hotel, Maputo City, Mozambique

“Mozambique, a preferred investment destination”.

BRIEF OVERVIEW OF THE FORUM

Mozambique's economy has been recovering from the effects of the COVID-19 pandemic that hit the country and the world, as well as natural disasters and other adversities. GDP growth reached 4.4% in 2022 and 5.0% in 2023, resulting from the Government's concerted efforts to policy reforms and attracting investment to the country.

The Middle East market has been developing economic diversification away from exclusive dependence on oil & gas and other natural resources, with a focus on infrastructure, telecommunications and food security by investing in several countries, including those on the African continent.

With a view to attracting Arab investment to the country, as well as promoting opportunities in different sectors of activity, the Government of Mozambique organizes the Arab Investment Forum in Mozambique, from 27th to 28th of May 2024 in Maputo City, in which strategic sectors of the Mozambican economy, such as infrastructure, energy, agriculture, tourism and manufacturing, as well as concrete bankable projects, with a focus on sustainability and industrialization will be highlighted.

The event will be attended by senior dignitaries and decision-makers from the Mozambican Government, representatives of established national and foreign companies, potential national and foreign investors, investment facilitators from national and foreign institutions.

Event arrangement:

The forum will be presented in panels that will address topics and opportunities on: (i) Perspectives of the Mozambican economy; (ii) Agribusiness; (iii) Industry; (iv) Infrastructures; (v) Tourism; (vi) Energy and Mineral Resources, as well as (vii) financing and partnerships between national and Arab businesses.

Networking:

On the sidelines of the event there will be opportunities for personalized/organized B2B contacts between national and foreign investors, as well as between them and the different facilitators and decision-makers in investment matters.
