

السادة أعضاء جمعية رجال الأعمال المصريين الأفارقة المحترمين

تحية طيبة وبعد،،

استكمالاً للجهود والأنشطة المعمول بها والعلاقات المتميزة التي تربط جمعية رجال الأعمال المصريين الأفارقة بشركائها الاستراتيجيين والذي تحرص فيه بعض الجهات الخارجية على التعاون مع الجمعية وأعضائها فقد ورد إلينا من التمثيل التجاري المصري دعوة لحضور المؤتمر السنوي الثامن للتصنيع الذكي والمصنع الآمن 2025 بمدينة مومباي الهندية، والذي يُعدُّ منصباً مهماً تجمع الخبراء والمختصين في مجال التكنولوجيا والتصنيع المتقدم لمناقشة أحدث التطورات والابتكارات. يتيح المؤتمر فرصاً قيمة للتشبيك وبحث التعاون التجاري بين الدول المشاركة.

Subject: Partnership Proposal 8th Smart Manufacturing & Secure Plant 2025, Mumbai 20th June

Dear Patron,

Greetings from Manufacturing Today!

We are happy to announce the **8th Smart Manufacturing & Secure Plant 2025 – Securing the Future: AI & Data Analytics for Resilient and Smart Manufacturing** scheduled on 20th June, 2025 in Mumbai.

The Next Manufacturing Hub: India emerged as one of the most promising Nation at the onset of an unfortunate calamity the start of this decade witnessed due to which significance of diversifying their manufacturing was detected by developed economies. The Manufacturing community in India thought this is the perfect opportunity for them which will not only promote employment & GDP growth but also poise India as the preferred destination for World's manufacturing needs. The Government too saw this as an eventful opportunity & assured that apt measures will be undertaken for investor friendly policies. Cut to 2 years later, we still do not see many companies entering India barring a few heavyweights, this brings forth few questions to ponder over, where are we heading? Do we scale up our Manufacturing operations through Smart

Innovation & AI? It is quite contradictory when the world is proceeding on Industry 5.0 & we still don't have Smart Factory Operations properly implemented in majority of Indian companies.

Some Key Topics of Discussion:

AI & IOT: The Blending of Two Technologies

The future of sustainable storage in the AI era

Protecting Critical Infrastructure in a Connected Era: Standing up to Cyber Risk in Operational Technology

The Ethical and Societal Implications of AI in Manufacturing

Leveraging Data Analytics for Operational Efficiency

Some of Our Speakers:
